1. INTRODUCTION

The Municipal Finance Management Act (MFMA) assigns specific oversight responsibilities to Council regarding the Annual Report and the preparation of an Oversight Report.

Given the processes required by Council to effectively undertake its oversight role, the establishment of an Oversight Committee of Council would provide the appropriate mechanism in which Council could fulfil its oversight responsibilities.

The Municipal Public Accounts Committee (MPAC) is one such committee at the Ugu District Municipality

The MPAC's primary role has been to consider the Annual Report, receive input from the various role players and to prepare a draft Oversight Report for consideration by Council.

2. BACKGROUND

The oversight role of Council is an important component of the financial reforms, and it is achieved through the separation of roles and responsibilities between Council, the Executive (Mayor and Executive Committee) and Administration. Good governance, effective accountability, and oversight can only be achieved if there is a clear distinction between the functions performed by the different role players.

Non-executive Councillors are required to maintain oversight on the performance of specific responsibilities and delegated powers that they have given to the Executive (Mayor/Executive Committee). In other words, in exchange for the powers which Council have delegated to the Executive, Council retains a monitoring and oversight role ensuring that there is accountability for the performance or nonperformance of the municipality.

The Municipal Finance Management Act, No.56 of 2003 (MFMA) vests in Council specific powers of approval and oversight.

- ✓ Approval of budgets.
- ✓ Approval of Budget related Policies; and
- ✓ Review of the Annual Report and adoption of the Oversight Report.

3. FUNCTIONS OF THE OVERSIGHT COMMITTEE

The functions of the Oversight Committee (MPAC) are to:

- ✓ Undertake a review and analysis of the Annual Report.
- ✓ Invite, receive, and consider inputs from Councillors and Portfolio Committees, on the Annual Report.
- ✓ Consider written comments received on the Annual Report from the public consultation process.
- ✓ Conduct Public Hearing(s) to allow the local community or any organs of state to make representations on the Annual Report.
- ✓ Receive and consider Council's Audit Committee views and comments on the Annual Financial Statements and the Performance Report.
- ✓ Preparation of the draft Oversight Report, taking into consideration, the views and inputs of the public, representative(s) of the Auditor-General, organs of state, Council's Audit Committee and Councillors.

4. COMPOSITION OF OVERSIGHT COMMITTEE

4.1 Membership

The MPAC is a committee of Council established under section 79 of the Municipal Structures Act, 1998. Section 79 allows for the co-option of advisory members to a Committee of Council, who are not members of the Council.

Due to the separation of roles and responsibilities, between Council and the Executive (Mayor and Executive Committee) it is not appropriate that members of the Executive Committee be members of the MPAC.

4.2 Authority & Power

The MPAC is delegated the responsibility to conduct meetings and to hold public hearings to receive and hear public submissions on the Annual Report, on behalf of Council.

Timely notice of all meetings should be given, and all meetings held by the MPAC must be open to the public and minutes of the meetings must be submitted to Council meetings.

4.3 Meeting Schedule

The Annual Report, presented to the Council during its meeting on January 25, 2024, underwent a thorough process of public engagement and feedback solicitation. The community was notified of the Annual Report's availability through print media and encouraged to provide their input. Public awareness was heightened through a notice published in the local South Coast Fever newspaper on February 1, 2024, and via the municipal website on February 2, 2024.

Copies of the Annual Report were made accessible at all municipal libraries and offices, and the UGU District Municipality website facilitated public input. Additionally, the Reports were discussed at the District Task Team meeting to gather valuable comments.

Upon the conclusion of the public submission period, a singular submission was received, highlighting the community's commendation for the municipality's notable achievement in fostering job creation within the district.

Furthermore, the Annual Report underwent scrutiny by key stakeholders, including the Auditor-General, Provincial Treasury, and the Department of Local Government and Traditional Affairs. The 2022-2023 Draft Annual Reports were presented at various committee meetings, including the Audit committee, MPAC, Sound Governance and Human Resources Portfolio, EXCO, and Council, ensuring a comprehensive review and discussion of the report's contents.

The 2022 2023 UGU Draft Annual Report was submitted to MPAC for consideration on the following dates...12 September 2023, 14 November 2023, 18 January 2024 and 1 March 2024 and the following matters were raised and noted, the minutes thereof annexed hereto.

- Cllr Luthuli requested that a physical meeting be scheduled to thoroughly discuss the report and provide input.
- That the report be presented at other platforms to increase public participation.

The Draft 2022 2023 Annual Report was submitted to the Auditor General and the Department of Corporative Governance and Traditional Affairs. Following numerous engagements with the AG and COGTA, all comments and findings have been resolved.

5. THE OVERSIGHT REPORT

This Oversight Report is for the financial year ended 30 June 2023.

Chapter 1 – Introduction & Overview

The foreword of the Mayor as well as the Municipal Manager's overview were both noted. Mayor expressed gratitude to the Executive Committee, Council members, and the Speaker for their unwavering dedication in fulfilling the municipality's mandate. The report underscores initiatives aimed at enhancing financial stability, diminishing reliance on grants, and resolving issues within the billing system.

The Municipal Manager highlighted the municipality's shock of the untimely passing of the late mayor, Cllr PH Mthiyane, and the Municipal Manager, Dr EMS Ntombela. Their passing had indeed left a huge void in the municipality, and they shall forever be saluted for their contributions made during their tenure. May their souls rest in eternal peace.

Chapter 2 – Governance

The Appointment of the Acting MM has resulted in resilient stability within the organization where significant strides are recognized in the pursuit of exceptional municipal performance. Through both permanent and Acting appointments, all S56 posts were filled for the 2022 2023 financial year.

The 2022 2023 Draft Annual Report was made available for public comment through various platforms. It was noted that 75% of wards within the district were functional.

Chapter 3 – Service delivery

The challenging economic conditions prevailing in the country have adversely affected the municipality's revenue collection, with a substantial number of consumers facing financial hardships. Despite being dedicated to its core function of water and sanitation services provision as a Water Services Authority, specific segments of the supply network have encountered challenges stemming from aging infrastructure and the recurring implementation of power blackouts by the power utility ESKOM.

Several factors, including cash flow constraints, staff shortages, power outages, vandalism, and aging infrastructure, contributed to unachieved targets. In the Basic Services Delivery Key Performance Area for the 2022-2023 financial year, MPAC observed a significant decline in performance, registering at 36%, reflecting a decrease of 24%.

To address these challenges, the municipality's Water Services department has devised various plans and strategies aimed at enhancing the financial situation. This proactive approach is expected to alleviate cash flow challenges that have impeded the delivery of essential services throughout the financial year.

Chapter 4

The organizational performance for the financial year 2022-2023 was reported at an impressive 91%, reflecting a notable improvement of 5% compared to the preceding financial year.

Despite facing significant financial challenges over several years, the municipality has made commendable strides in overcoming these difficulties. However, these financial constraints have posed considerable obstacles to meeting service delivery targets. The improved performance in other Key Performance Areas can be attributed to initiatives with minimal or no financial implications, allowing the municipality to sustain high levels of overall achievement.

In the context of the 2022-2023 financial year, the municipality set a total of 276 targets. Remarkably, 252 of these targets were successfully met, resulting in a mere 24 targets that went unachieved during the year. This performance underscores the municipality's dedication to meeting its objectives despite prevailing financial constraints.

Chapter 5

The municipality retained its unqualified audit opinion for the 2022-2023 financial year, and all grants allocated for the year were fully utilized.

Despite persistent cash flow challenges, the municipality proactively addressed these issues through an aggressive revenue collection strategy and stringent cost containment measures. These municipal initiatives are anticipated to enhance the organization's cash flow, thereby contributing to the augmentation of reserves and fostering a robust cash coverage for the municipality.

<p>Three-year capital plan for addressing infrastructure backlogs in terms of the Municipal Infrastructure Grant (MIG) framework.</p>	<p>A summary of the long-term capital plans and how these address the backlogs of services in the municipality should be provided.</p> <p>This should include details of types and scale of backlogs, projected cost implications, strategies to address the backlogs and plans proposed and/or approved. The summary here should cross reference to the performance reports in the annual report and will be highlighted in the coming budgets.</p> <p>Council should consider whether the plans appropriately address the backlogs and are consistent with the strategic policy directions of council and needs of the community.</p>	<p>Refer to Appendices M in the Annual Report for capital expenditure information.</p> <p>For this the municipality is grant dependent and 100% of this was spent.</p> <p>The gaps in level of services include rural/urban National design standards. This affects the rural area more and more because the level of service required in the rural area increases annually and the actual level of service cannot keep up with the demand. This trend will continue until service levels are equalized.</p> <p>The major basic service delivery challenge faced by the district is the slow pace of backlog eradication and high levels of aged infrastructure. The ageing infrastructure results in high maintenance costs which have an adverse effect on the eradication of backlog due to limited funding. This also has a direct impact on the municipality's compliance with minimum requirements of the No Drop, Green Drop, and Blue Drop standard. Furthermore, the municipality's Water and Sanitation Master Plans and thus prioritization and planning of projects, is outdated and in the process of development despite the financial constraints. There is also a challenge of high levels of illegal connections which further strains the available resource.</p> <p>Council is satisfied with all endeavour in this regard</p>
<p>6. Other considerations recommended</p>
